WHO WE ARE

Shore to Help is a Monmouth County organization working to raise funds for local charities. The group began meeting in November 2007 as a small number of community members organizing a Thanksgiving Day football game. What started as a simple morning of fun with friends (on a day otherwise reserved for family) quickly evolved into a real event! With nearly 300 participants through the years and over \$350,000 raised for local charities, Shore-to-Help aims to ease the burden for others through fund raising.

The Shore to Help goal is to improve our event year by year - both in the spirit of the event and the funds raised. This year, we are raising money for for Michael's Feat, which is a local 501(c)(3) non-profit organization dedicated to providing comfort and easing the burden for parents carrying and caring for seriously ill newborns. They are instrumental in supplying material goods and financial support which allows families caring for an ill preemie or newborn time to focus on what is important - caring for their child. For more information, please visit their website at www.michaelsfeat.org.
